

SMP PEER-LEARNING CALL *Lessons from Community Planning*

April 15th, 2021
10:00 – 11:30am

Please [register](#) to receive the Zoom meeting link!

TOPIC INTRODUCTION

Most SMPs involve local community members throughout the various phases of the planning process. What the involvement from community members looks like varies from SMP to SMP. During this peer call we'll learn about the approaches that the Yampa and Big Thompson teams took to engage their community. In particular we'll discuss the use of data visualization software like Tableau and Maptionnaire to gather and display their input. You'll learn from your peers their methods to involve local community members, how they reported findings back out to the community, and the lessons they learned.

ANTICIPATED OUTCOMES

- Learn about different approaches to engaging community members and best practices for reporting findings back out to the community.
- Connection, learning, and problem-solving with your peers.
- Continue to build a community of practice among SMP leaders, developing relationships and learning to collectively enhance work on SMP/IWMPs throughout the state.

AGENDA

- 10:00 – 10:10a.m.** **Welcome, Agenda Overview and Updates** – Mikhaela Mullins, River Network
- Overview of the Peer Learning Network and schedule of events for 2021
 - June field trip
